

**GROWN IN DETROIT** fruits, vegetables, and flowers are grown by families and youth in community gardens and urban farms throughout Detroit, Hamtramck, and Highland Park. While providing healthy food to inner city communities, our gardens beautify streets, improve property values, help build relationships between neighbors, and reduce crime.

**GROWN IN DETROIT** uses sustainable farming practices and promotes human health and nutrition. We produce our food in healthy soil without harmful chemicals, pesticides, fertilizers, or Genetically Modified (GMO) products.

Locally grown produce is thousands of miles fresher and tastes better than food shipped long distances from other states or countries. By eating at restaurants buying produce from **GROWN IN DETROIT** you help keep dollars in Detroit, and you get to enjoy food that tastes thousands of miles fresher.

**When you visit these restaurants, be sure to let them know that GID sent you!**
